| [15.03 – 15.07 ]   | <b>UI</b> - The mock-ups looked good, but now that we have some experience with Scene Builder and JavaFX, we need to think about what changes we might need to make to our UI design, due to the limitations of JavaFX.                                                                         |

- [15.07 – 15.15]      **Logic** – We should think about how we want to implement certain requirements, like adding cards/lists and talk about how we can apply the synchronization, which was implemented for the quote application, to our To Do list app.
- [15.15 – 15.19]      **Divide tasks** – We will divide the tasks, taking into account people who may not yet have a meaningful merge request
- [15.19 – 15.21]      **Deadlines** – We will set personal deadlines, regarding the tasks we divided earlier
- [15.21 – 15.25]      **Show TA our product** – Are we on track?
- [15.25 – 15.27]      **Feedback round** - What went well and what can be improved next time?
- [15.27 – 15.29]      **Question round** - Does anyone have anything to add before the meeting closes?
- [15.29 – 15.30]      **Closure**
