                   Sergiu-Nicolae Stancu, Konstantin Teplykh, Yuraj Mangalgi]
Chairman: Emils Dzintars
Minute Taker: Aadesh Ramai

Agenda-items:

[14:15 - 14:15]   **Opening by chair**
[14:15 - 14:16]   **Check in**
                         How is everyone doing?
                         How do you think we did with the product pitch?
                         Did everyone manage to send in the self reflection?
[14:16 - 14:17]   **Announcements**
                         Final product pitch deadline
                         Final heuristic evaluation deadline
                         Coding deadline
[14:17 - 14:18]   **Approval of the agenda**
                         Are there any additions to the agenda?
[14:18 - 14:19]   **Approval of minutes**
                         Did everybody read last week's minutes?
[14:19 - 14:27]   **Coding**
                         How close are we to finishing multi boards and card
                         Epics? Do we have bugs to fix?
                         Should we also try to implement more advanced
                         features?
                         Should we write tests for client using the link Sergiu sent
                         in whatsapp?
[14:27 - 14:34]   **Heuristic evaluation and Product pitch**
                         What should we change in the final versions of evaluation
                         and product pitch?
                         When are we finishing evaluation and product pitch?
                         If we decide to implement extra advanced features
                         Are we able to also make a new product pitch?
[14:34 - 14:37]   **Present our application**
                         How are we doing compared to other groups?
[14:37 - 14:38]   **Feedback round**

	What should be improved? What went well?
[14:38 - 14:39]	**Question round**
	Any additions or concerns?
[14:39 - 14:40]	**Closure**
